```
1  import static java.lang.System.*
2  class Test
3 ▫ {
4      public static void main(String[] args)
5 ▫     {
6          out.println("Hello Dont get shock");
7          out.println("It is valid");
8      }
9  }
10
11
```

Valid because of static import

```
53  2. the pkg statement should be first non-comment statement
54
55
56
57  package statement          I
58  import statements
59  class or interface or enum declarations
60
```
